2 Bedroom, 2.00 Bathroom, 1,874 sqft
Residential on 3 Acres

N/A, Woodstock, NY

This is a gem. An exquisitely designed and built home flooded with light, style and charm situated on a pond and a landscape reminiscent of a fairy tale. A true sanctuary. The house is an homage to the elegant country cottage, its scale and proportions are compact yet contemporary, the antithesis of the open concept. If you value exquisite design, quality construction, and attention to aesthetics, this is the house for you. Light-filled and charming, the house overlooks beautifully landscaped grounds that feature a pond, stone architectural elements, and a meandering trout stream. Rooms are scaled to be jewel boxes, each featuring lovely custom details that create a connection to the past, yet with all the convenience of modern living. Bookcases, moldings, columns, and a Rumford fireplace. First floor rooms are porcelain tiles with radiant heat. Ceiling heights vary, with some vaulted spaces. Open, eat-in kitchen with full pantry. Private office that has outside accessibility. Its location is also fortunate; it is conveniently located, close to the Bear Music Complex of restaurants, theatre and also to the NYC bus stop.
