N/A, Woodstock, NY

Near the top of Ohayo Mt Road yet only 5 minutes to Woodstock Village, this home was built by an architect in the 1960's and retains its authentic mid-century modern wow factor! Good bones in a amazing location. Sellers are relocating and are very motivated to pass this wonderful property on to the next owner who will love it as much as they do. Interesting details abound from the floating fireplace in the living room to the hand carved details in the banister as you enter. Hidden from sight from the road, the driveway in is picturesque and leads to this unique architectural jewel. With seasonal mountain views from the back (year round with a bit more clearing), the property offers plenty of outdoor level space and room for a pool. Stone pathways lead to a pavilion area at one end and around the home toward the woodland area below. In addition there is a playful freestanding outdoor deck/platform for watching sunsets and fireflies. Once inside the captivating light filled living and dining area leads out to the large back deck offering seamless integration from inside to out, with views of nature from both. Two bedrooms and a bath are on this level as well. The lower level has a large rec room and art studio, another bedroom and full bath, laundry room and office space, plus a charming glassed in porch/sunroom overlooking the trees. The space on this level is very versatile and can accommodate guests, multiple work/study from home areas and movie nights curled up on the couch. Room for artists, writers, and

gym/yoga spaces. Enjoy the Catskills and Hudson Valley from this very special property.
