Residential on 5 Acres

N/A, Woodstock, NY

The panoramic view, great location and lovely private home you've been waiting for is finally here! This gorgeous contemporary has the most amazing panoramic views of the Hudson valley all the way to the Berkshires I've been told. And this light and airy home is fabulously oriented to take in all those expansive views. As you enter this meticulously maintained home, the entire Hudson valley greets you through the large wall of windows you see 180 degree views. Come on in and check out the generously sized open living room/dining room/kitchen area and the cozy wood burning fireplace at the center of it all. You'll love the mahogany & Italian marble flooring. There is a sitting room just beyond the dining room and that connects to a great little solarium office and a bedroom with it's own entrance for separation from the main part of the home. On the other side of the entry is the main bedroom hallway that holds a main ensuite bedroom that is truly a picturesque oasis of privacy and peace with the same awesome views. There are 2 additional bedrooms and another bath in this wing. The expansive brand new 850 square foot deck off of the open living area is the perfect compliment to the most amazing views the Hudson Valley has to offer. There is another brand new deck off of the primary bedroom suite as well. All of this on a well maintained private dead end road at the top of the mountain and only minutes to all the wonderfully eclectic entertainment, shops and eateries that

Woodstock Village and Saugerties have to offer. You're going to love it!
