Waterfront property does not often become available and this is a perfect opportunity for you to obtain the dream of living on the water without breaking your budget. Here we have a Mid-Century Modern inspired brick ranch home, custom built by a brick mason with pride and workmanship throughout including the fireplace in the living room. Untouched cosmetically, but well maintained throughout its lifetime, this home has a lot to offer in this sweet ranch with 2 bedrooms, large closets, eat-in kitchen, and separate dining room. There is also a laundry room off the attached garage which connects to the house and the back porch. There is separate garage that admittedly will require some work, but it does have electric and plumbing at this time. The property is the real treasure here with 75 feet of frontage along the Esopus Creek. There are brick steps and stacked stone walls that lead you to the water's edge where you are then free to enjoy the benefits of waterfront living. Kayak, paddleboard, swim or simply just relax, this spot is truly special. Come take a look and then imagine how nice it will be to enjoy all that life can offer in this sweet home.

Built in 1969
